APVMA Approval no. 46434/1.75/0408

**BATCH #:**  
**DOM:**

50x35g Bait Label 0408 100%

**IMPORTANT: Read attached leaflet before use.**

**STORAGE, TRANSPORTATION AND DISPOSAL:** Only authorised personnel can have access to baits. Baits must be transported and stored in such a way that unauthorised personnel cannot have access to baits. Unless approved by the relevant State/Territory authority, users must not store baits after a baiting campaign is complete. Do not store the bait in a position accessible to children, livestock or domestic pets. The pesticide is only to be kept or stored in the container, and bearing the label, as supplied by the manufacturer. Do not allow baits to contaminate foodstuffs, or feed, for human or non-target animal consumption.

Triple rinse or pressure rinse containers before disposal. Break, crush or puncture and dispose of empty rinsed containers in a local authority landfill and/or as specified by relevant State/Territory requirements. If no landfill is available, bury the containers below 0.5 m in a disposal pit specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots. Containers which have held product are not to be used for any other purpose and must be disposed of by burning or deep burial.

**SAFETY DIRECTIONS:** Very dangerous. Poisonous if swallowed. When opening the container and using baits wear elbow-length PVC gloves. If product on skin, immediately wash area with soap and water. After use and before eating, drinking or smoking, wash hands, arms and face thoroughly with soap and water. After each days use wash gloves and contaminated clothing.

**FIRST AID:** Speed in treatment is essential. If poisoning occurs, contact a doctor or Poisons Information Centre (phone: 13 11 26). If skin contact occurs, remove contaminated clothing and wash skin thoroughly. Remove from the contaminated area. Apply artificial respiration if not breathing. If in eyes, hold eyes open, flood with water for at least 15 minutes and see a doctor.

**MSDS:** Refer to Material Safety Data Sheet for further information.
