Australia

APVMA Approval Number: 60931/300g/0409

HOW TO USE

DO NOT place baits in heaps. Clean up spilled baits after filling applicator or whenever the baits are spilt.

DO NOT apply to edible plants or to crops where bait may be collected with harvested commodity.

| SITUATION | PEST | RATE | HOW TO APPLY |
|-------------------------|------------------|---|--------------------------------|
| Gardens and small areas | Snails and slugs | 0.6g/m ² (60-66 baits/m ²) | Scatter baits evenly over soil |

NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION

This product contains denatonium benzoate bitter flavour as a child and pet taste deterrent.

GENERAL INSTRUCTIONS:

Scatter the baits evenly over the soil wherever snails and slugs are to be found. Apply at a rate of 0.6g/m². This is equivalent to approximately 60 baits per square metre.

Best results are achieved by application after rain, watering or during damp and humid weather when the snails and slugs are most actively seeking food, but not when rain is imminent.

PROTECTION OF WILDLIFE, FISH, CRUSTACEA AND ENVIRONMENT:

DO NOT contaminate streams, rivers or waterways with the product or used containers.

PROTECTION OF DOMESTIC ANIMALS AND LIVESTOCK:

Keep away from animals, poultry, ducks and domestic pets as accidental poisoning may be fatal. Keep away from dogs. Dogs find this bait attractive and it may kill them. If pets are poisoned, contact a veterinary surgeon.

STORAGE AND DISPOSAL:

Store in the closed original container in a dry, cool, well ventilated area out of direct sunlight. Store in a locked room or place away from children, animals, food, feedstuff and fertilisers. Dispose of empty container by wrapping in paper, placing in plastic bag and putting in garbage.

SAFETY DIRECTIONS:

When opening the container and loading and if applying by hand, wear cotton overalls buttoned to the neck and wrist (or equivalent clothing) and elbow-length rubber gloves. After each day's use, wash gloves and contaminated clothing. Wash hands after use.

FIRST AID:

If poisoning occurs, contact a doctor or Poisons Information Centre.
Phone Australia 13 11 26.
