For the control of mice and rats

Contains 200g NET

Animal Control Technologies (AUST) P/L
46-50 Freight Drive Somerton Vic 3062
Emergency Contact Number: (03) 9308 9688
APVMA No.: 51245/2/0604

RESTRAINTS:

DO NOT leave baits accessible to domestic animals, livestock, and wildlife including birds.
DO NOT apply directly to crops.
DO NOT allow bait to contaminate foodstuff or feed intended for human or animal consumption.
Containers which have held bait should not be used for any other purpose.

Situation

Domestic & commercial premises around grain storages, farm buildings & animal housing

Place baits stations less than 3m apart, in areas inaccessible to animals & birds. If possible apply bait in the late afternoon. Eliminate, as far as possible, all alternative feed sources for the rats or mice. Bait required will depend on mouse or rat numbers. Continue to replenish bait eaten daily until no more bait is taken.

NOT TO BE USED FOR ANY OTHER PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION.

NOT TO BE USED FOR THE CONTROL OF NATIVE RODENTS.

PRECAUTION: This product is hazardous to humans, birds and animals.

Do not leave baits accessible to domestic or farm animals, children or wildlife.

PROTECTION OF WILDLIFE, FISH, CRUSTACEA AND ENVIRONMENT:

DO NOT contaminate streams, rivers or waterways with chemicals or used containers. Collect and burn or bury rodent carcasses daily.

STORAGE AND DISPOSAL:

Storage of product: Store in a safe place. Disposal of bait: Bait that is not eaten by the end of the baiting program is to be collected and destroyed by incineration, or buried to a depth of 50 cm. Disposal of containers: Break, crush or puncture and bury empty containers in a local authority landfill. If no landfill is available, bury the containers below 50 cm in a disposal pit. Empty containers should not be burnt.

SAFETY DIRECTIONS: Poisonous if swallowed. Do not inhale dust. Repeated minor exposure may have a cumulative poisoning effect. Avoid contact with eyes and skin. Do not touch bait. Use scoop or measure. If on skin and after each baiting, wash thoroughly with soap and water. Vitamin K1 (phytomenadione) is antidotal.

FIRST AID: If poisoning occurs, contact a doctor or Poisons Information Centre. Phone Australia 131 126.

Manufacturer's warranty and exclusion of liability: This product as supplied is of a high grade and believed to be suitable for any purpose for which it is expressly recommended and must be used in accordance with the Directions for Use given on the label. No responsibility is accepted in respect of this product save those non-excludable conditions implied by any Federal or State legislation or law of a Territory.

DIRECTIONS FOR USE

Rate of application

50-500g per bait station
